DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to a communication interface for interfacing an appliance with a power line carrier communication system, classified in class 340, subclass 310.01.
 - II. Claims 16-20, drawn to a power line diagnostic module, classified in class 340, subclass 657.

The inventions are distinct, each from the other because of the following reasons:

2. Group I (claims 1-15) and Group II (claims 16-20) are distinct inventions because Group I is directed to a communication interface between an appliance and a power line carrier, and Group II is directed to a power line diagnostic module for monitoring/detecting the conditions of a power line (e.g., detecting the frequency, voltage, etc.).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2632

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
